Rhonda
Hi... I'm Rhonda, the office manager of Optimal Dental, and welcome!

Our goal is to make your experience with us as gentle and comfortable as possible. From your first phone call to your time in the treatment chair, Dr. Donaire wants you to feel that you're in good hands.

We believe that gentle care means more than a gentle touch during treatment. It's also about taking the time to listen, answer your questions, and make you feel comfortable every step of the way.

We're a small, independent practice, and we enjoy getting to know the people who come through our door. You're not just another appointment on the schedule. We don't overbook, and we make time for you.

Whether it's a routine cleaning, a restoration, or dealing with pain that needs fixing, we're there for you.

We also do a lot of cosmetic work, so if something's been bothering you about your smile, we have lots of ways to help.

If you have a dental emergency, we can usually see you the same day — and if it's after hours and Dr. Donaire can't take care of you personally, she has an on-call colleague who will.

Dr Donaire

Thank you for visiting and welcome!

I've been practicing dentistry for nearly three decades, and while technical expertise is extremely important, I believe that how you treat people is just as important.

Your comfort is important to me, and I listen closely and take the time to answer your questions. I don't rush. When you're in my chair, you have my full attention.

I'm gentle by nature, and I'll always tell you what's happening before it happens.

These are the members of my team. They're dedicated to listening, paying attention, and making your comfort and health a priority.

[Cut to slides of staff]

You deserve a beautiful, pain-free smile — and that's what I'm here for.

I'd love to meet you!

Rhonda

We look at it this way: We're here to provide the expertise and the care, but you're the one taking the important step toward better dental health. (We think you're the hero in this story...not us!)

You deserve to feel comfortable, have a great smile, and have a dentist who takes the time to help you achieve both.
We welcome a phone call, anytime.

We look forward to meeting you!
